	A blend of Central and South American beans roasted to the perfect darkness with a memorable kick.		Our medium roast, blended from Central and South American beans with a smooth, crisp taste. Recommended for those new to Kintore Coffee or Espresso drinkers.		Our newest roast, with an incredible flavour profile. This lighter roasted medium roast is a combination of high end rubusta and arabica beans. This gives it 20% more caffiene content for that extra boost to get you going anytime of the day.		Undertones of chocolate and a hint of a floral accent makes this light roast from Costa Rica a coffee lover's backcountry dream.		A decaf coffee that packs a punch, try our dark roasted Ethiopian decaf. With a mighty taste, it's stronger than any decaf you've ever tried before.
